Enrollment at Circle Christian School

Encouraging Learning

This part of the mission at Circle Christian School is realized by offering a wide range of options to our students. Each family is able to individually address student academic needs while engaging in a supportive and inspiring school-wide community. Enrollment at CCS means your students are attending a private school. The academic office will record your student grades and curriculum and enrichment choices. High School students will benefit from Circle's full-service Guidance Department including course planning conferences, scholarship recommendations, and standardized testing opportunities.

Enrollment is open from March 1 through June 15, 2017.
